Master of Environmental Design (Research) (158AA)

Award: Master of Environmental Design

Faculty: Faculty of Arts and Design

CRICOS Code: 003245K

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

This course is one of a suite of similar courses, the others being the masters degree course in Architecture (192AA); the masters degree course in Industrial Design (196AA); the masters degree course in Landscape Architecture (195AA); and the masters degree course in Urban and Regional Planning (110AA).

These masters degree courses consist of a thesis comprising advanced study and research embodying an original investigation of a topic falling within one or more fields of study for which the masters degree has been accredited. Candidates whose thesis will be in a cross-disciplinary area will enrol in the Master of Environmental Design course. Those whose thesis will be predominantly in one area will enrol in the appropriate degree course. The thesis may take the form of a written report with drawings or other supplementary material.

Course Requirements

Students are required to complete a thesis valued at 48 credit points by enrolling in either 1812 Environmental Design Masters Thesis PT (for part-time candidates) or 2861 Environmental Design Masters Thesis:FT (for full-time candidates).

Course Duration

Standard: 4 semesters full-time or part-time equivalent
Maximum: 4 semesters full-time or part-time equivalent.

Admission Requirements

Applicants must meet normal University of Canberra requirements for admission to a master's course by research (in accordance with Gold Book 3.4.4). There are no special admission requirements.

Graduates from other disciplines, or who have completed a bachelor degree of three year duration only, may be required to undertake bridging units unless they can demonstrate that any work experience has served the same purpose.

Course Enquiries

Students should consult with the course convener in the first instance, or seek further assistance from the Office of the School of Design and Architecture, 7A A28, (02) 6201 2178.

Doctor of Philosophy (Education) (208AA)

Award: Doctor of Philosophy

Faculty: Faculty of Education

CRICOS Code: 054211J

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The degree of Doctor of Philosophy in the field of Education involves candidates in a program of research requiring the presentation of a doctoral thesis which should provide evidence of the candidate's ability to conceive, execute and report on a scholarly piece of research in advanced theory or student practice.

The objectives of the course are -

- a. to promote and provide a means of high levels of education, research and development for those people directly involved in the design, operation and future development of Australian education;
- b. to provide a program of research suitable for teachers, administrators and officers in related fields of education.

Course Requirements

Candidates are required to complete the subject 1257 Education Doctoral Thesis D PT or 1258 Education Doctoral Thesis D:FT.

The doctoral thesis should demonstrate that the candidate has academic and technical competence in the field and has done research of an original and independent character. The thesis must add to or modify what was previously known, and present significant original analysis of the subject based upon investigation.

Course Duration

The duration of the course for full-time candidates will normally be 6 semesters or equivalent part-time.

Admission Requirements

Entry requirements for the PhD are an honours degree, a masters degree or a postgraduate diploma at a high level of achievement.

Intending candidates should make an application to the Division for admission to the course by completing a PhD application form which is available from the Graduate Studies Officer, 1C151

(02) 6201 5407.

Applicants should submit with their application a thesis proposal and an outline of their proposed area of research as explained in the Doctor of Philosophy application form. Prior to selection, applicants should be prepared for further contact with the course convener, at which they will be expected to further define the nature of the problems they propose to investigate and demonstrate their competence to undertake doctoral research in that field of education.

Course Enquiries

Students should consult with their supervisors in the first instance. Further assistance may be sought from the Divisional Graduate Studies Officer.

Doctor of Philosophy (Applied Science) (232AA)

Award: Doctor of Philosophy

Faculty: Faculty of Science and Technology

CRICOS Code: 054212G

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The program is designed to provide an opportunity for high calibre graduates to undertake scholarly postgraduate research in a field of study taken from one of the following areas of expertise within the Division - cultural heritage sciences, human and biomedical science, resource and environmental science, dependent on the availability of supervisors.

It is strongly recommended that all potential candidates contact the course convener prior to submission of an application, as a research proposal (3-5 pages) is required with the application.

Successful completion of the program requires candidates:

- to conceive, design and carry to completion a piece of original research which, in the opinion of three independent assessors of recognised standing, adds substantially to existing knowledge and understanding of the field of study;
- to demonstrate a thorough knowledge of the scientific literature in their field of study and be aware of current or potential areas of contention likely to form the focus of future research in their field;
- to develop the skills necessary for communicating the results of their work effectively to other professionals in their field of study;
- to demonstrate a high degree of scholarship.

Course Requirements

Satisfactory completion of 72 credit points as follows:

4091 Doctoral Thesis in Applied Science D:FT or

4090 Doctoral Thesis in Applied Science D:PT

Typical Course Structure

Full-time candidates enrol in the subject 4091 Doctoral Thesis in Applied Science D:FT; Part-time students enrol in the subject 4090 Doctoral Thesis in Applied Science D:PT.

Course Duration

6 semesters full-time or equivalent part-time.

Admission Requirements

Applicants shall have a degree of bachelor with first or upper second class honours awarded by an Australian university or other recognised higher education institution, and provide evidence of research training and aptitude for research.

Course Enquiries

Students must consult with their supervisors for course advice at the commencement of, and during, their studies.

Introduction

The School offers a PhD program in areas of study related to its research centres: cultural heritage conservation studies and environmental philosophy, planning and design.

Course Requirements

A candidate will be required to undertake original research resulting in a thesis which makes a significant contribution to understanding, and/or to knowledge and/or its application in an agreed specialised area within the field of studies in environmental design. The work should entail systematic and searching reviews of the relevant literature in order to locate the study in relation to existing work in the field, the development of a clear statement as to the aims and objectives of the study, systematic investigation of the topic and the development of a well articulated theoretical position for undertaking its analysis. All this work should be incorporated into a well-written and well-argued thesis which describes the work done and articulates the findings of the study.

Typical Course Structure

Students enrol in either 4436 Doctoral Thesis Envir/mental Design D:FT (full-time); or 4435 Doctoral Thesis Envir/mental Design D:PT (part-time).

Course Duration

3 years full-time or equivalent part-time.

Admission Requirements

Candidates must hold an honours degree at first class or 2A level, or a qualification deemed by the University's Admissions Committee to be equivalent. The qualification should be in a relevant discipline.

Bachelor of Science (392AB)

Award: Bachelor of Science

Faculty: Faculty of Science and Technology

University Admissions Centre (UAC) Course Code: 368103

CRICOS Code: 025533J

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The Bachelor of Science (BSc) degree is a very flexible degree that provides students with an understanding of their chosen fields within a number of science disciplines including the possibility of a non-science discipline. This is beneficial when students seek a broad education and wish to keep a range of career options open for as long as possible. It is also useful if students are initially undecided as to their course preferences, or require a cross-disciplinary education within or beyond science, such as combining studies in science and law. On enrolment, student will be encouraged to seek course advice on selecting majors and individual subjects appropriate to their interest, career aims and abilities.

Course Requirements

72 credit points comprising:

(a) Restricted choice (48 credit points)

(b) Open electives (24 credit points)

as set out below.

(a) Restricted Choice (48 credit points)

(i) Two 18 credit-point **Science majors** from the following suggested list of Science majors: Applied Ecology; Applied Statistics; Cultural Heritage Studies; Disease Investigation; Ecological Conservation; Environmental Assessment; Human Biology: Chemical & Molecular Principles; Human Biology: From Cells to Organisms; Human Nutrition; Information Systems; Integrated Environmental Management; Introduction to Psychological Science; Psychological Science; Software Engineering; Sports Science; Water Science.

This list is not finalised and students are advised to check with the course convenor for the latest update.

(ii) One 12 credit-point **Science minor** from the following suggested list of Science minors: Applied Statistics; Biological Chemistry; Cultural Heritage Studies; Disease Investigation; Ecology; Environmental Assessment; Environmental Management; Human Biology; Human Nutrition; Information Systems; Land Information Systems; Mathematical Structures & Computation; Software Engineering.

This list is not finalised and students are advised to check with the course convenor for the latest update.

(b) Open electives (24 credit points)

The remaining 24 credit points could consist of either:

1. another major (18, 21 or 24 credit points) chosen from all valid elective majors in the University, together with such single elective subjects as might be necessary to make up the 24 credit points, OR
2. any four-subject elective minor chosen from all valid elective minors in the University, OR
3. a combination of either of the above options b(i) and (ii) incorporating the balance of subjects in the Science majors selected under (a)(i) above if 21 credit point or 24 credit point versions of the majors exist.

Note: These subjects must be chosen so that there are no more than 30 credit points at first year level in the degree.

Bachelor of Arts (429AA)

Award: Bachelor of Arts

Faculty: Faculty of Arts and Design

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The Bachelor of Arts degree provides a flexible preparation for many areas of vocational and professional employment, as well as the broad perspective required for informed citizenship. A four-unit Liberal Arts Foundation sequence, with choices at individual unit level, combines with a choice of Arts majors to complete the requirements of an Arts degree. The remaining units mark the character of the degree as either arts-oriented or professional, and include an open choice of one full major. Foundation program units may themselves become the basis for a continuing major or minor sequence.

Course Requirements

72 credit points, comprising:

(a) Restricted choice (48 credit points)*

(b) Open electives (24 credit points)

as set out below.

(*Note: 48 credit points from restricted choice units is a minimum, based on the assumption that students undertake 18 credit points majors from the restricted Arts or Professional majors lists, below. A 21 or 24 credit points Arts or Professional major will raise this figure, and correspondingly reduce the number of credit points available for open electives.)

(a) Restricted Choice (48 credit points) comprising:

(i) 12 credit points from the **Arts Foundation Minor**,

(ii) An 18 credit points **Arts major** from the following list of Arts majors:

Applied Linguistics; Chinese Language; Communication; Creative Writing; Cultural Studies; Economics; English Language and Literature; Gender and Diversity; International Studies; Japanese Language; Law and Society; Literary Studies; Mathematical Perspectives; Politics and Government; Spanish Language; Sociology.

(iii) Another 18 credit points **Arts major** from the above list OR a **Professional major** selected from the following list:

Accounting; Advertising Studies; Applied Psychology: Social & Clinical; Applied Statistics; Banking and Finance; Community Development; Computer Information Systems; Counselling Studies; Employment Relations; Financial Management; Human Nutrition and Health; Inclusive Education; Information Studies; Integrated Environmental Management; Journalism; Law and Technology; Management; Marketing; Public Relations; Sports Management; Sustainable Development Economics; Tourism.

(b) Open electives (24 credit points):

The remaining 24 credit points could consist of either: another major (18, 21 or 24 credit points) chosen from all valid elective majors in the University, together with such single elective units as might be necessary to make up the 24 credit points;

OR

any two four-unit elective minors chosen from all valid elective minors in the University;

OR

a combination of either of the above options incorporating the balance of units in the Arts or Professional majors selected under (a)(ii) or (a)(iii) above if 21 credit points or 24 credit points versions of the majors exist,

provided that students do not breach the general rule limiting the number of credit points at Level 1 to 30 credit points.

Graduate Certificate in Legal Studies (551AA)

Award: Graduate Certificate in Legal Studies

Faculty: Faculty of Business, Government & Law

University Admissions Centre (UAC) Course Code: 880140

CRICOS Code: 064488G

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The Graduate Certificate in Legal Studies is designed to provide the most basic foundation in legal method and skills and the ability to pursue study interests by selecting from a wide variety of disciplines in the law related to the students interests and requirements. This provides flexibility for graduates working, or intending to work, in government, the teaching profession and the private sector. The course aims as a whole to develop in graduate and mature students meeting entry requirements an awareness of the nature and operation of the law and the legal system, and to provide those employed in those sectors with a working understanding of areas of law of particular vocational relevance and interest. Depending on the units taken, it may provide status towards the Juris Doctor or Master of Legal Studies degrees or the Graduate Diploma in Legal Studies.

Admission is open to graduates of any discipline other than law from a recognised Australian tertiary institution and to mature students who wish to start tertiary studies and meet minimum entry requirements. Graduates who hold a degree in any discipline from a foreign university may also be permitted to undertake the course. Students are encouraged to seek advice from the Course Convener in their choice of subjects, whether or not they intend ultimately to pursue a graduate degree in law.

Introduction

The Master of Business Administration (MBA) is designed to develop and enhance the management competencies of current and future business leaders locally, nationally and globally. In addition to developing competencies in the core management areas of accounting & finance, marketing, managing people, economics, data analysis and understanding the international business environment, there is a focus on ethical and strategic decision making. There is also the opportunity to study elective subjects in areas of special interest.

The MBA is based on coursework and is presented in a range of teaching formats including lectures, tutorials, seminars and workshops. It is offered in the mainstream and flexible weekend delivery modes and is designed to enable practicing managers and other professionals to transfer learning immediately to the workplace. The broad aim of the course is to offer individuals aspiring to either general management or senior functional management roles, the opportunity to develop competencies relevant to the effective management of enterprises. Specific objectives of the MBA are:

- (a) to provide for graduates a professional masters degree level course in business administration;

Introduction

The Master of International Business (MIB) is based on coursework. It is aimed at graduates interested in business training in the context of a globalised business environment. The MIB recognises the emergence of an international trade culture at all levels of business activity and that a manager's qualifications and competencies need to have the same international dimension. The program of study is designed to develop core business management skills and to provide the opportunity for more advanced studies concentrating on international aspects of trade. On completion of the program, graduates will have acquired the financial, marketing and people skills essential to the management role in a globally competitive business environment; advanced knowledge and understanding of the current dynamics in international business; and the ability to apply such knowledge to the operational mechanisms of international trade within its legal and ethical framework. The MIB provides graduates with a framework for developing a successful international business strategy and is suitable for business professionals, line managers, government advisers, consultants and those with international interests.

University Admissions Centre (UAC) Course Code: 880710

CRICOS Code: 049512E

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Part Time, Face-to-Face -
 - Full Time, Face-to-Face -

Introduction

This course is designed to train psychology graduates to work as clinical psychologists, providing the 5th and 6th years of training required for Membership of the Australian Psychological Society and for Associate Membership of the APS College of Clinical Psychologists, and the two years of supervised practice required for full registration as a psychologist. The course emphasises the acquisition of clinical psychological knowledge and skills, as well as the further development of an understanding of psychological research, particularly to facilitate ongoing professional development. A major teaching strategy is the adoption of a problem-solving approach to learning to strengthen the acquisition of practical skills. The course also introduces students to the applications of health psychology and forensic psychology in clinical practice.

Master of Physiotherapy (768AA)

Award: Master of Physiotherapy

Faculty: Faculty of Health

University Admissions Centre (UAC) Course Code: 880805

CRICOS Code: 050002F

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The course caters for graduates of an appropriate undergraduate human biology degree to provide focussed training in physiotherapy. The degree will incorporate lectures, laboratories and tutorial sessions with a strong professional practice component to provide students with the necessary knowledge, attitudes and clinical decision making skills required to practise as physiotherapists. A series of problem based clinical studies will further develop the skills and flexibility of students, allowing them to adapt to the challenges encountered in the delivery of physiotherapy in a wide variety of settings.

Professional experience will be gained in public hospitals and private practices in the ACT and surrounding region. This will be consistent with the guidelines for registration of physiotherapists approved by ACOPRA. Total clinical placement experience will be up to 1000 hours during the course, however an individual student's clinical placement experience within the sub-disciplines of physiotherapy will differ from student to student. Clinical case write-ups and log-book entries will supplement the clinical and professional aspects. Monitoring of the academic rigour will occur through a University of Canberra course consultative committee.

This course will have accreditation sought by the Australian Council of Physiotherapy Regulatory Authorities (ACOPRA) to be recognised by the Health Professions Registration Board of the ACT and the Australian Physiotherapy Association.

Course Requirements

At least 48 credit points, including at least 24 credit points at PG Level, comprising the following 16 units.

6448 Electrophysical Agents PG
6449 Musculoskeletal Interventions 1 PG
6447 Cardiothoracic Interventions 1 PG
6450 Health Professional Practice 1 PG
006452 Neurological Interventions 1P
006454 Health Professional Practice 2P
006451 Evidence Based Practice P
006453 Musculoskeletal Interventions 2P
006455 Cardiothoracic Interventions 2P
006458 Paediatric Interventions P

006456 Neurological Interventions 2P
006457 Musculoskeletal Interventions 3P
006460 Physiotherapy in the Community P
006459 Physiotherapy in Ageing P
006461 Musculoskeletal Interventions 4P
006462 Physiotherapy in Specific Groups PG

Typical Course Structure

At this stage the course is only available for Semester 2 entry.

Semester 2

YEAR 1

6448 Electrophysical Agents PG
6449 Musculoskeletal Interventions 1 PG
6450 Health Professional Practice 1 PG
6447 Cardiothoracic Interventions 1 PG

Course Duration

4 semesters (not available part-time). Entry in semester 2 only, maximum 12 semesters.

Admission Requirements

Applicants will have a relevant degree in the Health Sciences or equivalent (including the subject areas of Functional Anatomy, Physiology and Exercise and Biomechanics) and have a history of above average grades. Admission will be competitive and applicants will be required to submit a short statement stating reasons for wishing to be admitted to the course.

All students in the Master of Physiotherapy course are required to undergo a Criminal Record Check prior to undertaking clinical experience in the community. All students are also required to present an immunisation history. Students are strongly advised to have all immunisations complete prior to commencing clinical experience. All students will be required to complete an approved CPR certification prior to undertaking clinical placements.

All applicants need to complete the supplementary application form as well as the standard application form for admission to the University of Canberra.

Professional Recognition

Accreditation of this course will be sought from the Australian Council of Physiotherapy Regulatory Authorities (ACOPRA) to be recognised by the Health Professions Registration Board of the ACT and the Australian Physiotherapy Association.

Bachelor of Arts in International Studies (793AA)

Award: Bachelor of Arts in International Studies

Faculty: Faculty of Arts and Design

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

This degree gives students the opportunity to attain intercultural understandings and develop conceptual knowledge of international issues. Foreign language study provides in-depth cultural insight and an enhanced ability to function at an international level. International Studies investigate the interplay of cultural, political and economic forces in the global arena. The option of a Professional Major enhances career prospects with international focus. A highly recommended international exchange semester provides first-hand international experience.

Upon completion of this degree students will have: high level analytical and critical thinking skills; communicative competence in a language other than English; an understanding and appreciation of cultural diversity; an understanding of the cultural and political forces that influence communication and cooperation or conflict between cultures and nations; an understanding of theories relating to the study of culture, politics and communication in the context of globalisation; well developed intercultural awareness.

Bachelor of Science in Psychology/Bachelor of Laws (833AA)

Award: Bachelor of Laws, Bachelor of Science in Psychology

Faculty: Faculty of Health

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The degree in psychology provides the basic academic training required for those wishing to qualify as a professional psychologist. A solid grounding is provided in all areas of psychology including learning, cognition, social and development psychology, psychopathology, perception, biological bases of behaviour, individual differences and statistics. With the growing complexity of psychological knowledge, postgraduate study after a three year degree is essential for professional practice. Students are able to graduate with the degree of Bachelor of Science in Psychology at the end of three years.

The law degree prepares students for employment in the legal profession as either solicitors or barristers. It has a strong practical and skills orientation, and equips students with competencies in the basic areas of legal practice. It also has a strong commercial orientation which meets the educational requirements of graduates, thus making it attractive to other professions especially those from accounting, finance or administration. The course is designed for students intending to practise in law or accounting firms, or in the government. The capacity to enter legal practice gives graduates the flexibility to change careers if necessary.

Doctor of Philosophy in Management (853AA)

Award: Doctor of Philosophy

Faculty: Faculty of Business, Government & Law

CRICOS Code: 054189B

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The Doctor of Philosophy program in management provides research training in applied aspects of management. The program consists of a substantial thesis in a topic from any area of business management, cross-cultural management, diversity management, general management, human resource development, human resource management, international management, organizational behaviour, organizational theory, performance management and strategic management.

Course Requirements

The Doctor of Philosophy program in Management is made up of a 72-credit point thesis. Students enrol in 6565 Doctoral Thesis in Management R FT or 6661 Doctoral Thesis in Management R PT.

Typical Course Structure

Students will be required to write a thesis. There is no coursework component. Subject to University policy on supporting studies in the PhD program (Gold Book 3.2.2.4 et seq), where the Division believes that a student would benefit from one or more units in research methodology and/or research methods, it may recommend that such a unit (or units) are made a condition of candidature, in addition to the thesis requirement.

Course Duration

Normally 6 semesters or part-time equivalent, maximum 8 semesters or part-time equivalent.

Admission Requirements

As per Gold Book 3.2.4. Before a candidate will be admitted to the program, the Division must be satisfied that it is able to supervise the candidate's proposed thesis and that the candidate has sufficient prior research experience to allow him/her to complete the thesis. Candidates who have been admitted into the program will be required to submit a final research proposal and deliver a work-in-progress seminar during the first year of their candidature before this candidature is confirmed.

Course Enquiries

Students should seek course advice from the course convener. Further assistance is available from the Office of the School of Business & Government.

Honours in Information Sciences (860AA)

Award: Bachelor of Business Informatics (Honours), Bachelor of Information Technology (Honours), Bachelor of Software Engineering (Honours)

Faculty: Faculty of Science and Technology

CRICOS Code: 054169F

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Part Time, Face-to-Face -
 - Full Time, Face-to-Face -

Introduction

The Honours program in Information Sciences is one year of study following an undergraduate degree in the areas of information sciences (including business informatics, information systems, software engineering, network engineering, mathematics and statistics). The award students study towards will be based on their undergraduate degree. The Course Convenor and the appointed supervisor will develop an appropriate program of study for the student. It is a rigorous program of study, half of which is spent on advanced course work, with the other half dedicated to an individual research project. The coursework component involves units in advanced areas of information systems, network engineering, software engineering and artificial intelligence. The project component involves a substantial individual project under detailed academic supervision. A formal thesis is submitted (nominally 10,000 words), and a seminar is presented.

Course Requirements

At least 24 credit points made up of coursework (12cp) and thesis (12cp) as follows. The award students study towards will be based on their undergraduate degree. The Course Convenor and the appointed supervisor will develop an appropriate program of study for the student. Thesis examination and course completion will be assessed against the award the student has been nominated to be studying towards.

Required (24 credit points):

Coursework component:

Students have to select a total of 12 credit points of coursework comprising 6797 Inf. Sc. Research Methodology PG (3cp) and 9 credit points from PG level units offered by the School of Information Sciences and Engineering as approved by the Course Convener.

Thesis component:

Students are required to take 12 credit points of research work comprising 6799 Inf. Sc. Research Proposal H (3 credit points) and an honours thesis (9 credit points) : 7062 Inf. Sc. Honours Thesis H 9cp (3cp) or 7063 Inf. Sc. Honours Thesis H 9cp (6cp) .

Typical Course Structure

Master of Information Sciences (Research) (861AA)

Award: Master of Information Sciences, Master of Engineering

Faculty: Faculty of Science and Technology

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

Master of Information Sciences is a postgraduate research course for students who have completed a Bachelors degree in Information Sciences, for example, Bachelor of Business Informatics, Bachelor of Information Technology or Bachelor of Software Engineering. It provides for advanced coursework and research in statistics, business informatics, mathematics, information systems, network engineering, software engineering, artificial intelligence, and other engineering and information technology related areas. Participation in this masters program will develop a candidates knowledge of a chosen field and extend that field through a contribution to knowledge. It will educate the candidate in research methodology and techniques. A specific program of coursework, research methodology and research will be developed with each student and the appropriate award (M InfSc or ME) selected.

Course Requirements

The course has two components making up 48 cp - coursework at PG level 15 cp **and** research 33 cp. A specific program of coursework, research methodology and research will be developed with each student and the appropriate award (M InfSc or ME) selected. This program and selected award will be reflected in the student's Learning Plan; and will be used in assessing milestones and for thesis examination purposes.

Coursework component:

Students have to select a total of 15 credit points of coursework comprising

6797 Inf. Sc. Research Methodology PG (3cp)

and 12 credit points from PG level units offered by the School of Information Sciences and Engineering as approved by the Course Convener.

Research component:

Students are required to take 33 credit points of research work comprising

6798 Inf. Sc. Research Proposal R (3cp)

and research thesis (30 cp) :

6802 Master of Inf. Sc. Thesis R FT or 6803 Master of Inf. Sc. Thesis R PT

Students are also required to complete a Research Education Program that will enable them to acquire the generic skills and attributes identified as appropriate for graduates of postgraduate research programs at the University of Canberra.

Professional Doctorate in Information Sciences (Research) (862AA)

Award: Doctor of Information Sciences

Faculty: Faculty of Science and Technology

CRICOS Code: 064487J

Offered Locations and Delivery Modes:

- **UC - Canberra, Bruce**
 - Full Time, Face-to-Face -
 - Part Time, Face-to-Face -

Introduction

The Professional Doctorate in Information Sciences is a rigorous higher degree by research oriented to the informed and critical application of knowledge to problems and issues concerning the Information professions and their professional practice. It offers professionals in the information sciences (including business informatics, information technology, statistics, mathematics, and engineering) an opportunity to study advanced subjects in these areas and to undertake research in a specialist area of information sciences. The main objective of this course is the extension of knowledge, expertise and skills towards the improvement of professional practice in information sciences. It provides advanced study and reflection on practice in the information professions by both drawing on student's professional experience and expertise, and extending it. The professional doctorate therefore provides the opportunity to bring together, in a scholarly submission, professional work done over a period of time. The course is intended to develop the capacity of individuals to lead development of knowledge in their professional contexts.

Course Requirements

The course has two components making up 72 cp coursework at PG level 24 cp **and** research 48 cp.

Coursework component:

Students have to select a total of 24 credit points of coursework comprising

6797 Inf. Sc. Research Methodology PG (3cp)

and 21 credit points from PG level units offered by the School of Information Sciences and Engineering as approved by the Course Convener.

Research component:

Students are required to take 48 credit points of research work comprising

6798 Inf. Sc. Research Proposal R (3cp)

and research thesis (45 cp) :

6800 Doctor of Inf. Sc. Thesis R FT or 6801 Doctor of Inf. Sc. Thesis R PT

The students are normally allowed to enrol in the thesis subject only after they have successfully completed the coursework component of the course.

Students are also required to complete a Research Education Program that will enable them to acquire the generic skills and attributes identified as appropriate for graduates of postgraduate research programs at the University of Canberra.

Maximum: 4 years full-time or part-time equivalent

Admission Requirements

The entry requirements of the course are

- a degree in information sciences (such as Bachelor of Business Informatics, Bachelor of Information Technology, Bachelor of Software Engineering) with an average grade of credit or better, **or**
- a Master of Technology or equivalent with an average grade of credit or better

and at least five years of appropriately high-level professional practice in information science,

and evidence of capacity for doing research at the doctoral level.

Professional Recognition

Accreditation will not be sought from the Australian Computer Society as candidates eligible to enrol will already be eligible for professional membership of the society.
